- 3 Jaevenitz (M 53/Y 54): A cantonment has been under construction in the woods southeast of Jaevenitz (see Annex) since late November 1949. About 20 cantonment buildings were completed as bare structures and as many cantonment buildings were under construction. The required timber was cut in the surrounding woods. The farmers were told not to enter the restricted area or to till their fields within this area in spring. The construction of a railroad spur track from the Jaevenitz railroad station toward the restricted area was started. The guard details were detached from a unit stationed in Stendal (M 53/Y 85).
